

The Great Fire of London – Year 2 Knowledge Organiser Spring 1 2018

Key Facts

- The Great Fire of London happened in the 17th century.
- The fire started in a bakery on Pudding Lane.
- The fire started on 2nd September 1666 and was finally put out on the 5th September 1666.
- Many of the houses in London at the time were made from wood and straw.
- There had been a drought lasting 10 months before the fire.
- We know a lot about what happened in the great fire because Samuel Pepys wrote a diary.
- Leather buckets, metal hooks and water squirts were used to fight the fire.

Chocolate — Year 2 Knowledge Organiser Spring 2 2018

Key Facts

- Chocolate is made from the beans in the fruit pods of the Cacao tree.
- The Cacao tree was originally found in central and southern America.
- Now most Cacao trees are found in Ghana, Africa.
- When the Cacao beans are dried roasted them become cocoa which is used to make chocolate.
- Cacao beans are thought to have been used first in the 1500s BC!
- Cocoa beans are sold all over the world and used in factories to make chocolate bars.
- Some chocolate companies are Fairtrade e.g. 'Cadbury' and 'Green and Black's Organic'.
